Sohna, Gurugram 122103

## SUMMARY

"I am a great fit for this role because i have a strong skills in Python, HTML, CSS and web development and SQL etc. I intend to work in the IT sector. Where I can use what I've learned to create innovative solutions to real-world problems.

## EDUCATION

Class XII board HBSE medium hindi year of passing 2022 grade 65 -69.9 %

Class X board HBSE medium hindi year of passing 2020 grade 75-79.9%

### Haryana board

2020-2022

### Bachelor of Computer Application

DPGITM Gurugram(MDU University Rohtak)

2022-Present

## PROJECTS

### Voting System

The Python-based voting system project is a simple yet powerful application designed to facilitate an efficient and secure voting process. It allows users to manage the voting process smoothly. Each voter can cast a single vote, and the system ensures that no duplicate votes are recorded. Votes are tallied in real-time, and once the voting period ends, the system instantly announces the results, showing the vote count for each candidate and declaring the winner.

### Rock Paper Scissors game

The Rock Paper Scissors game project in Python is a simple, interactive program where the user competes against the computer in the classic hand game. The program prompts the user to choose between rock, paper, or scissors, while the computer and my select sits choice using Python's random module. The game logic determines the winner based on the standard rules: rock beats scissors, scissors beat paper, and paper beats rock. The outcome is then displayed, indicating whether the player won, lost, or if it was a draw. The project provides a fun, straight forward introduction to Python programming and the use of conditionals and loops.

## SKILLS

Web development(HTML CSS JavaScript)

Programming languages(C Python C++)

Database Management(SQL)

Networking protocols(HTTP TCP/IP)

MS Excel

## TRAINING/COURSES

Python Programming

Web development

## STRENGTHS

### Creativity

Ability to think outside the box and innovate in project development

### Adaptability

Quick to learn and adapt to new tools, technologies and environments.

## PASSIONS

"I am a great fit for this role due to my passion for Python developer and my strong skills in web development , SQL etc. My enthusiasm for tackling complex problems and I thrive on collaborating with teams and delivering impactful solutions."
