Languages - Java ,Core Java , Object Oriented Programming(OOPS), HTML ,JavaScript
Tools   -   VS Code ,GitHub,Postman , IntelliJ IDEA for Java,Linux

Experience
Currently working at **C-Zentrix**   **Since Dec 2024**

Worked in the Operations department at **Practo Technologies**, responsible for updating and managing Practo's software. Additionally, collaborated with the development team to identify and implement software enhancements that improved system efficiency and user experience.   **July 2015 – Dec 2016**

Certification

Newton School - Full-Stack Developer Bootcamp   **July 2022 – June 2023**
Acquired proficiency in data structures alongside mastering technologies such as HTML, CSS, JavaScript, and React. Demonstrated expertise through the development of various projects integrating React, JavaScript, HTML, CSS, and Node.js.

Projects

Restaurant-App | Newton School
https://foodfrontend-gray.vercel.app/
TechStack : HTML,CSS, React , Redux ,Tailwind CSS,Node.js ,MongoDB
Description : :It's a website similar to a food app where users can browse and select food items, add them to the cart, and proceed to payment after logging in.

University-Website
https://university-website-virid.vercel.app/
TechStack : HTML,CSS, Javascript,React JS
Description : This is a fully responsive university website built using React. Components are utilized, and there is a form where you can submit your query.

User Authentication & Management System
https://github.com/Boundless8002/backend-code/
TechStack : Node JS, Express ,Mongoose/MongoDB
Description : A Node.js and MongoDB-based backend providing secure user authentication, profile management, and avatar uploads with bcrypt and Multer

Education   **June 2015**

Bachelor of Engineering , Rustamji Institute of Technology Gwalior (M.P) ,Electronics & communication , **Scored** - 80.8 %
